83%, PCM

Madhav Institute of Technology and Science
B-Tech, CSE, 3rd year

PROJECTS

Mental Health Platform : OCT-DEC 2025
(<https://github.com/Shiva-005/The-Beacons-A-Clear-Path-in-Uncertain-times.git>)

Technologies Used: React, Firebase, TypeScript, MongoDB

Role: UI/UX design, Frontend Developer

- I Build UI components and integrated Firebase authentication & real-time Database.
- I Implemented Chatbot functionality for smooth user interaction

Job Searching platform : OCT-DEC 2025
(<https://github.com/rashi125/job.git>)

Technologies Used: React, TypeScript, Firebase,

Role: UI/UX design, Frontend Developer

- I Developed job Listing pages, search filter, and responsive components.
- I Integrated Firebase for job posting and user interactions.

- **Todo list** : (<https://github.com/Lakshya-2004/ToDo-List.git>)
 - Tech : React , JavaScript , UI/UX design . Role : Complete React , UI/UX developer.
- **Card-Search** : (<https://github.com/Lakshya-2004/Pokemon-Go.git>)
 - Tech : React , JavaScript , UI/UX design , . Role : Complete React , UI/UX developer.
- Along with real-time search feature.

ACHIEVEMENTS & HACKATHONS

5th Rank in SIH internal Level

Secure 9th place in Intra-College code fest

Objective :

“Motivated and hardworking college student seeking an internship to enhance communication and problem-solving skills, contribute to a positive team environment, and gain hands-on experience while learning new technologies.”
